

The Heart Can't Stand Rheumatic Acid Poisoning

The Uric-O Treatment Expels the Poison from the Blood

Those sharp, shooting pains through the chest around the region of the heart mean that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure Rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Cleans out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed, and neutralizes the acid within the blood.

Uric-O is a liquid taken internally 3 times daily, and does not contain any morphine, opium or other so-called "pain deadeners." Sciatica, Muscular, Inflammatory and Arterial Rheumatism all yield readily to Uric-O.

Sold by N. D. Sevin & Son, Norwich, B. Hart, Deane, and J. W. Tuckerham, Worcester, for 75c and \$1.00 the bottle, or you can obtain a trial bottle free by writing to The Smith Drug Co., 194 Smith Bldg., Syracuse, N. Y.

COLCHESTER.

Surveyors of Norwich-Hartford Line Reach Borough—Temperance Rally—Social Notes.

The surveyors of the Hartford, Colchester and Norwich trolley road reached the village Saturday afternoon. The people of the town are very enthusiastic about the project, and only hope that upon completion of the survey that work on construction will commence.

There was a large attendance at the social given by the Social club of Olive Woodhouse lodge, K. of P. Prof. H. H. Woodhouse, chairman, and Prof. Hamilton of Norwich promptly opened. There was a number of men from Hebron and other surrounding towns.

John Bradshaw and Mrs. W. H. Williams were recent visitors in town.

A. E. Lyman of Columbia was the guest of F. T. Bunch Friday and Saturday.

Temperance Meeting.

At the Sunday morning services in the Baptist church the pastor, Rev. B. D. Remington, took as his subject "The Lessons of the Hour." In the evening there was a temperance mass meeting. The pastor took as his theme "Local Option and the Relation to Civic Responsibility."

The Dorcas society meets this "Tuesday" afternoon at the parsonage. There was a large attendance at the entertainment given by the members of the C. Y. P. S. in the audience room of the chapel. The order consisted of the singing by the choir of "The Village Blacksmith." Also a farce, after the entertainment games were played by the younger members.

Frank and Carl Rogers of Salem were recent visitors in town.

ACKNOWLEDGE IT

Norwich Has to Bow to the Inevitable—Sorrow of Citizens Proved.

After reading the public statement of this representative citizen of Norwich given below, you must come to this conclusion: A remedy which cures years ago which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Mrs. Catherine Hogan, living at 22 Hickory Street, Norwich, Conn., says:

"For some time I was severely troubled by kidney complaint. I had pains and aches all through my back and an indescribable feeling of weakness. In all parts of my body. I tried numerous remedies, but did not obtain relief. I was finally told about Doan's Kidney Pills, and procuring them from N. D. Sevin & Son's drug store, began their use according to directions. They helped me from the first, and a continued use brought about a complete cure. I can recommend Doan's Kidney Pills very highly." (From statement given April 15, 1908.)

DOAN'S KIDNEY PILLS CURE PERMANENTLY.

On August 25, 1908, Mrs. Hogan says: "I take pleasure in confirming the statement I gave in favor of Doan's Kidney Pills over two years ago. Practically speaking I have had no return of my trouble with my kidneys since using this remedy. Many people have called upon me to ascertain if my statement was true, and I have always assured them that such was the case."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Westerly Financial Town Meeting

Votes to Extend Water System to Pleasant View and to Issue Bonds of \$100,000—Settlement in Burke Will Contest—Death of Samuel B. Hoxie—Fifth Company Inspection—St. Patrick's Day Celebration.

As a result of the action of a financial town meeting, Monday, the Westerly water system will be extended to Pleasant View, and the town will issue bonds of \$100,000 to fund the outstanding indebtedness. The meeting was largely attended and was called to order by Moderator Eugene B. Pendleton, the call being read by Town Clerk Everett E. Whipple. Senator Louis W. Arnold of the board of water commissioners stated that property owners had made petition for the extension of the water system to Pleasant View, and that, after careful consideration, the commissioners would recommend the extension, adding that the property owners at Pleasant View had given guarantees that extension could be made without loss to the town. Each had agreed to pay the water department a minimum charge of \$15 for water for the year ensuing from June 1. Should a sufficient number of water takers connect with the proposed extension, result in a gross income of not less than ten per cent of the cost of construction, which will not exceed \$10,000, the minimum charge shall be reduced to \$10, or charged in the more compact part of the town for \$3.334 gallons of water.

Senator Arnold then presented a resolution authorizing the water commissioners to extend the water service to Pleasant View, and that the treasurer be authorized to borrow the sum of \$100,000 for that purpose.

The resolution was seconded by Judge John W. Sweeney. Mantion Hoxie said he was in favor of the proposed extension, but wanted to know the exact cost. He said that heretofore it had been a characteristic of town meetings to make appropriation of a specified sum for a specified purpose, but it served only as a wedge for additional appropriations.

Senator Arnold, in reply to Mr. Hoxie, said he had served the town on the board of water commissioners for two years, and without financial recompense, and there was not a taxpayer in the town who could truthfully say that any appropriation made for the water system had been excessive, but the work was always within or below the estimate. He said the cost of extending the service to Pleasant View would not exceed the appropriation asked for—\$10,000.

Thomas H. McKenzie, engineer and superintendent of the water works, gave a detailed description of the proposed extension, the size of pipe, etc. The service is for domestic and not fire purposes. The distance of the new pipe line will be a trifle over two miles, connecting with the twelve-inch main at the junction of the Watch Hill and Shore roads.

Then followed a long discussion as to the size of pipes in connection with a proposition that might come later to extend the water service from Pleasant View to Weekapaug. The whole subject, although not germane to the resolution, which provided for the extension to Pleasant View and the appropriation of \$10,000 for the work, was discussed at length by J. Price, Maxon, Price, Price, Milo Clark, Louis W. Arnold, Frederick C. Buttram, Thomas McKenzie, Thomas H. Peabody and John J. Carney. During the discussion it was shown that the water system was adequate for all present needs and a valuable asset for the town.

The resolution favoring the extension and appropriation was unanimously adopted.

Then came the resolution authorizing the issuance of bonds to the amount of \$100,000 to fund the town debt or so much thereof as was practical.

Town Treasurer James M. Pendleton stated that in 1904 there was an act passed by the general assembly giving authority to the town to issue bonds, and which included school indebtedness. Since then the market was not in condition to dispose of the bonds satisfactorily, and notes were substituted. Treasurer Pendleton said the 1904 resolution had been rescinded, and a new resolution of authority passed at the present session of the general assembly. He said the present was a favorable time to issue the bonds, as the time may come when an increased rate of interest would be required.

The general financial condition of the town was then gone into, and a general discussion as to whether the bonds, which were to be of \$1,000 denomination, should be all issued for the thirty-year term, or issued in series redeemable in ten year periods. Mr. Pendleton explained in detail the advantage of issuing the bonds for the longer period, and Senator Arnold, Frederick C. Buttram, Thomas H. Peabody and Mantion Hoxie spoke on the issuance of the bonds, but warning was frequently sounded of the necessity of being more economical in the conduct of town affairs, and that the chief fault was with the citizens in "squandering."

Local Laconics.

Mrs. Percy Dawley and Miss Elizabeth Martin, Westerly teachers, visited in Boston schools, Monday.

The young people of St. Michael's parish will celebrate St. Patrick's day by a shamrock social and patriotic entertainment.

Miss Laprex, who was so severely injured at the White Rock mill, her scalp being entirely torn off, still survives the terrible shock. Her temperature and pulse were abnormally high on Monday and her prospects of recovery were not encouraging.

The Bulletin's Blue Ink. The Norwich Bulletin is now printing.

Near Death in Big Pond. It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King's New Discovery brought quick relief and a cure so permanent that I have not been troubled in twelve years." Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, Sore Throats, Hemorrhages, La Grippe, Asthma, Croup, Whooping Cough and all Bronchial affections. 50c and \$1.00 bottles free. Guaranteed by Lee & Osgood Co.

The Lurid Glow of Doom. was seen in the red face, hands and body of the little son of H. M. Adams, of Henrietta, Pa. His awful plight from eczema had, for five years, defied all remedies and baffled the best doctors, who said the poisoned blood had affected his lungs and nothing could save him. "But," writes his mother, "seven bottles of Electric Bitters completely cured him." For Eruptions, Eczema, Salt Rheum, Sores and all Blood Disorders and Rheumatism Electric Bitters is supreme. Only 50c. Guaranteed by Lee & Osgood Co.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. Lee & Osgood Co.

Wonderful Engineering Feat. For more than a third of a century the United States government has been striving to provide a channel in the lower Detroit river, that would prove equal to the constantly increasing demands of marine interests on the Great Lakes. The some four-foot Line Mine Crossing, some four miles below Detroit, and the most troublesome part of the channel, was excavated by the United States Army.

With the water out of the cofferdam, excavating was undertaken. From through the pumps one hundred and thirty acres of the river bed was exposed so completely that it was possible to walk dryshod over the entire area.

Two twelve-inch centrifugal pumps, each with a capacity of 5,000 gallons of water every twenty-four hours, and a battery of fifty air lifts, with a combined capacity of 50,000 gallons daily, were started and the flood inside the cofferdam began to recede. In spite of the magnitude of the job, so thorough had been the work of building the dam that no leaks of consequence developed, and within ten days after the first water found its way through the pumps one hundred and thirty acres of the river bed was exposed so completely that it was possible to walk dryshod over the entire area.

Samuel B. Hoxie of Charlestown died Sunday in his native town in his old age.

Samuel B. Hoxie of Charlestown died Sunday in his native town in his old age. He was born in New London in 1839. Since that time he has been prominent in public affairs. For 26 years he served as chairman of the school board, was town moderator for eight years. He represented the town in the lower house of the general assembly three years and as senator two years. Mr. Hoxie was a member of the town council eight years and president during his last term of service. He was for several years one of the town auditors, and a member of the state shellfish commission for five years. He is survived by Mrs. Hoxie and three daughters, Miss Mary S. Hoxie, Mrs. Frank A. Greene of Charlestown, and Mrs. Ernest F. Ruckert of Providence.

The annual inspection of the Fifth company, coast artillery corps, took place in the state armory Monday evening. With Capt. Homer B. Greene, U. S. A., as inspecting officer for the general government, Colonel Winfield performing the duty for the state, at the same ceremonial. The inspection was public and there were many spectators who were pleased at the good showing made by the soldier boys. After inspection lunch was served in the officers' quarters.
